6.Advantages & Disadvantages:

Advantages:

1. Free Learning Source

You can learn a variety of things from YouTube, like never before. There are so many tutorials shared on the website, from different food recipes to DIYs. So, one can acquire new skills and discover new things and the best part, its free of cost.

2. Access Anytime, Anywhere

Another advantage of YouTube is that one can access it anywhere and anytime. Unlike TV where your favorite shows are broadcasted at set times, on YouTube, the content is available 24x7.

3. **Entertainment for All**

YouTube is an entertaining hub. You can find all kinds of videos here: from short skits to animated videos for your amusement.

Disadvantages:

1. **Quality and Copyright:**

The quality of videos on YouTube can vary significantly as not all videos create professionally, and some are pirated from other places and uploaded to YouTube.

2. **Misinformation:**

Some videos on YouTube contain misinformation or false information. Fact-checking information you find online, including those on YouTube, is essential. Taking the lead from personal flogs can be exceptionally dangerous as that information can be precise to the people involved and might not be the best for you as an individual.

3. **Inappropriate content:**

While YouTube has strict policies to remove inappropriate content, some videos may not be suitable for all audiences. YouTube has a feature that helps keep children away from adult content.

4. **Advertisements:**

Some users may find YouTube ads annoying or intrusive as these adverts often appear in the middle of a video and can take one away from the story involved.

7.CONCLUSION:

This project would be very useful for the viewers who are all wanted to create an account in YouTube channel and wants to become a top youtuber in the world. By this project they can get some ideas of the contents for their videos.
